The **IC** and the **Licensee** agree as follows:

1. **BACKGROUND**
   
   1.1 In the course of conducting biomedical and behavioral research, the **IC** investigators made inventions that may have commercial applicability.
   
   1.2 By assignment of rights from the **IC** employees and other inventors, **HHS**, on behalf of the **Government**, owns intellectual property rights claimed in any United States or foreign patent applications or patents corresponding to the assigned inventions. **HHS** also owns any tangible embodiments of these inventions actually reduced to practice by the **IC**.
   
   1.3 The Secretary of **HHS** has delegated to the **IC** the authority to enter into this **Agreement** for the licensing of rights to these inventions under 35 U.S.C. §§200-212, the **Federal Technology Transfer Act of 1986**, 15 U.S.C. §3710a, and the regulations governing the licensing of Government-owned inventions, 37 C.F.R. Part 404.
   
   1.4 The **IC** desires to transfer these inventions to the private sector through commercial research licenses to facilitate the commercial development of products and processes for public use and benefit.
   
   1.5 The **Licensee** desires to acquire the rights to use certain of these inventions in order to develop processes, methods, or marketable products for public use and benefit.

2. **DEFINITIONS**

2.1 **“Affiliate(s)”** means a corporation or other business entity, which directly or indirectly is controlled by or controls, or is under common control with the **Licensee**. For this purpose, the term "control" shall mean ownership of more than fifty percent (50%) of the voting stock or other ownership interest of the corporation or other business entity, or the power to elect or appoint more than fifty percent (50%) of the members of the governing body of the corporation or other business entity.

2.2 **“Government”** means the government of the United States of America.

2.3 **“Licensed Patent Rights”** shall mean:

   (a) U.S. patent applications and patents listed in Appendix A, all divisions and continuations of these applications, all patents issuing from such applications, divisions, and continuations, and any reissues, reexaminations, and extensions of all such patents;

   (b) to the extent that the following contain one or more claims directed to the invention or inventions claimed in 2.3(a):

   (i) continuations-in-part of 2.3(a);

   (ii) all divisions and continuations of these continuations-in-part;

   (iii) all patents issuing from these continuations-in-part, divisions, and continuations; and
(iv) any reissues, reexaminations, and extensions of these patents;

c) to the extent that the following contain one or more claims directed to
the invention or inventions claimed in 2.3(a): all counterpart foreign
applications and patents to 2.3(a) and 2.3(b), including those listed in
Appendix A; and

d) Licensed Patent Rights shall not include 2.3(b) or 2.3(c) to the extent
that they contain one or more claims directed to new matter which is
not the subject matter of a claim in 2.3(a).

2.4 “Licensed Products” means tangible materials, identified in Appendix B, which, in the course of
manufacture, use, sale, or importation would be within the scope of one or more claims of the
Licensed Patent Rights that have not been held unpatentable, invalid or unenforceable by an
unappealed or unappealable judgment of a court of competent jurisdiction.

2.5 “Licensed Processes” means processes, identified in Appendix B, which, in the course of being
practiced, would be within the scope of one or more claims of the Licensed Patent Rights that
have not been held unpatentable, invalid or unenforceable by an unappealed or unappealable
judgment of a court of competent jurisdiction.

2.6 “Licensed Territory” means the geographical area identified in Appendix B.

2.7 “Licensed Fields of Use” means the field of use identified in Appendix B.

3. GRANT OF RIGHTS

3.1 The IC hereby grants and the Licensee accepts, subject to the terms and conditions of this
Agreement, a nonexclusive license under the Licensed Patent Rights in the Licensed
Territory to make and to use, but not to sell Licensed Products and Licensed Processes in the Licensed
Fields of Use.

3.2 The Licensee has no right to sublicense.

3.3 This Agreement confers no license or rights by implication, estoppel, or otherwise under any
patent applications or patents of the IC other than the Licensed Patent Rights regardless of
whether such patents are dominant or subordinate to the Licensed Patent Rights.

3.4 The IC acknowledges that information relating to the Licensed Patent Rights may be of
assistance to the Licensee in its research efforts. Accordingly, the IC shall consider reasonable
requests by the Licensee for access to the inventors of the Licensed Patent Rights.

4. ROYALTIES

4.1 The Licensee agrees to pay the IC a non-creditable, nonrefundable license issue royalty as set
forth in Appendix C.

4.2 The Licensee agrees to pay the IC a nonrefundable annual royalty as set forth in Appendix C.
4.3 All royalties due under this Agreement shall be paid in U.S. dollars, net of all non-U.S. taxes, and payment options are listed in Appendix E. For conversion of foreign currency to U.S. dollars, the conversion rate shall be the New York foreign exchange rate quoted in The Wall Street Journal on the day that the payment is due.

4.4 Additional royalties may be assessed by the IC on any payment that is more than ninety (90) days overdue at the rate of one percent (1%) per month. This one percent (1%) per month rate may be applied retroactively from the original due date until the date of receipt by the IC of the overdue payment and additional royalties. The payment of any additional royalties shall not prevent the IC from exercising any other rights it may have as a consequence of the lateness of any payment.

5. PERFORMANCE

5.1 Upon receipt and verification of the royalties due under Paragraphs 4.1 and 4.2, the IC agrees, if Licensed Products are available to the IC, to provide the Licensee, at the Licensee's expense, with samples of the Licensed Products to the individual and address listed in Appendix D and, at reasonable cost to the Licensee, to replace them in the event of their unintentional destruction. The Licensee agrees to retain control over the Licensed Products and shall not distribute or release them to others without the prior written consent of the IC.

5.2 The Licensee shall expend reasonable efforts and resources to carry out the research development plan submitted with the Licensee's application for a license and shall begin research within six (6) months of the effective date of this Agreement.

5.3 The Licensee agrees in its use of any Licensed Products provided by the IC to comply with all applicable statutes, regulations, and guidelines, including NIH and HHS regulations and guidelines. The Licensee agrees not to use the Licensed Products for research involving human subjects or clinical trials in the United States without complying with 21 C.F.R. Part 50 and 45 C.F.R. Part 46. The Licensee agrees not to use the Licensed Products for research involving human subjects or clinical trials outside of the United States without notifying the IC, in writing, of this research or trials and complying with the applicable regulations of the appropriate national control authorities. Written notification to the IC of research involving human subjects or clinical trials outside of the United States shall be given no later than sixty (60) days prior to commencement of this research or trials.

5.4 All plans and reports required by this Agreement shall be treated by the IC as commercial and financial information obtained from a person and as privileged and confidential and, to the extent permitted by law, not subject to disclosure under the Freedom of Information Act, 5 U.S.C. §552.
6. **NEGATION OF WARRANTIES AND INDEMNIFICATION**

6.1 The **IC** offers no warranties other than those expressly specified in Article 1.

6.2 The **IC** does not warrant the validity of the **Licensed Patent Rights** and makes no representations whatsoever with regard to the scope of the **Licensed Patent Rights**, or that the **Licensed Patent Rights** may be exploited without infringing other patents or other intellectual property rights of third parties.

6.3 **THE IC MAKES NO WARRANTIES, EXPRESSED OR IMPLIED, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF ANY SUBJECT MATTER DEFINED BY THE CLAIMS OF THE LICENSED PATENT RIGHTS OR OF ANY LICENSED PRODUCTS PROVIDED TO THE LICENSEE UNDER PARAGRAPH 5.1.**

6.4 The **IC** does not represent that it shall commence legal actions against third parties infringing the **Licensed Patent Rights**.

6.5 The **Licensee** shall indemnify and hold the **IC**, its employees, students, fellows, agents, and consultants harmless from and against all liability, demands, damages, expenses, and losses, including but not limited to death, personal injury, illness, or property damage in connection with or arising out of:

(a) the use by the **Licensee**, its directors, employees, or third parties of any **Licensed Patent Rights**, or

(b) the design, manufacture, distribution, or use of any **Licensed Products** or materials provided under Paragraph 5.1, or other products or processes developed in connection with or arising out of the **Licensed Patent Rights**.

6.6 The **Licensee** agrees to maintain a liability insurance program consistent with sound business practice.

7. **TERM, TERMINATION AND MODIFICATION OF RIGHTS**

7.1 This **Agreement** is effective when signed by all parties, unless the provisions of Paragraph 8.8 are not fulfilled, and shall expire at the time specified in Appendix B, unless previously terminated under the terms of this Article 7.

7.2 In the event that the **Licensee** is in default in the performance of any material obligations under this **Agreement**, including but not limited to the obligations listed in Paragraph 7.3 and if the default has not been remedied within ninety (90) days after the date of notice in writing of the default, the **IC** may terminate this **Agreement** by written notice and pursue outstanding royalties owed through procedures provided by the Federal Debt Collection Act.

7.3 The **IC** shall specifically have the right to terminate this **Agreement** by written notice if the **Licensee**:
(a) has not demonstrated that it is executing the research plan submitted with its application for a license or that it has not taken or cannot be expected to take, within a reasonable time, effective steps to achieve the practical application of the Licensed Patent Rights as contemplated by this Agreement; or

(b) has willfully made a false statement of or willfully omitted a material fact in its application for a license or in any report required by this Agreement.

7.4 The IC reserves the right according to 35 U.S.C. §209(d)(3) to terminate this Agreement if it is determined that this action is necessary to meet the requirements for public use specified by Federal regulations issued after the date of the license and these requirements are not reasonably satisfied by the Licensee.

7.5 The Licensee shall have a unilateral right to terminate this Agreement by giving the IC sixty (60) days written notice to that effect.

7.6 Within thirty (30) days of receipt of written notice of the IC’s unilateral decision to modify or terminate this Agreement, the Licensee may, consistent with the provisions of 37 C.F.R. §404.11, appeal the decision by written submission to the designated IC official. The decision of the designated IC official shall be the final agency decision. The Licensee may thereafter exercise any and all administrative or judicial remedies that may be accessible.

7.7 If either party desires a modification to this Agreement, the parties shall, upon reasonable notice of the proposed modification by the party desiring the change, confer in good faith to determine the desirability of the modification. No modification shall be effective until a written amendment is signed by the signatories to this Agreement or their designees.

7.8 Within ninety (90) days of expiration, termination or term extension of this Agreement under this Article 7, a final report shall be submitted by the Licensee. The Licensee shall send the report to the IC at the Mailing Address for Agreement notices indicated on the Signature Page or electronically mailed to the email address indicated on the Signature Page.

(a) The report shall include, but not be limited to, progress on the research and development involving the Licensed Patent Rights, the Licensed Products or the Licensed Processes.

(b) Any royalty payments, including those incurred but not yet paid (such as the full minimum annual royalty) due to the IC shall become immediately due and payable upon termination or expiration. Unless otherwise specifically provided for under this Agreement, upon termination or expiration of this Agreement, the Licensee shall return all Licensed Products or other materials included within the Licensed Patent Rights to the IC or provide the IC with written certification of the destruction thereof.

(c) If the term of the Agreement is extended at the Licensee’s request, then the IC and the Licensee will negotiate in good faith regarding the schedule for reports regarding the information required in 7.8(a);
(d) If the term of this Agreement is longer than ten (10) years, then the IC may request a status update report after the fifth (5th) year of the Agreement; and

(e) The Licensee may not be granted additional IC licenses if this reporting requirement is not fulfilled.

7.9 Paragraphs 4.3, 4.4, 5.4, 6.1-6.5, 7.6, 7.8 and 7.9 of this Agreement shall survive termination of this Agreement.

8. GENERAL PROVISIONS

8.1 This Agreement constitutes the entire agreement between the parties relating to the subject matter of the Licensed Patent Rights, and all prior negotiations, representations, agreements, and understandings are merged into, extinguished by, and completely expressed by this Agreement.

8.2 The provisions of this Agreement are severable, and in the event that any provision of this Agreement shall be determined to be invalid or unenforceable under any controlling body of law, such determination shall not in any way affect the validity or enforceability of the remaining provisions of this Agreement.

8.3 The construction, validity, performance, and effect of this Agreement shall be governed by Federal law as applied by the Federal courts in the District of Columbia.

8.4 All Agreement notices required or permitted by this Agreement shall be given by prepaid, first class, registered or certified mail properly addressed to the other party at the address designated on the following Signature Page, or to another address as may be designated in writing by such other party, and shall be effective as of the date of the postmark of such notice.

8.5 This Agreement shall not be assigned or otherwise transferred (including any transfer by legal process or by operation of law, and any transfer in bankruptcy or insolvency, or in any other compulsory procedure or order of court) except to the Licensee’s Affiliate(s) without the prior written consent of the IC. The parties agree that the identity of the parties is material to the formation of this Agreement and that the obligations under this Agreement are nondelegable.

8.6 The Licensee acknowledges that it is subject to and agrees to abide by the United States laws and regulations (including the Export Administration Act of 1979 and Arms Export Control Act) controlling the export of technical data, computer software, laboratory prototypes, biological materials and other commodities. The transfer of these items may require a license from the appropriate agency of the Government or written assurances by the Licensee that it shall not export these items to certain foreign countries without prior approval of the agency. The IC neither represents that a license is or is not required or that, if required, it shall be issued.

8.7 The parties agree to attempt to settle amicably any controversy or claim arising under this Agreement or a breach of this Agreement, except for appeals of modification or termination decisions provided for in Article 7. The Licensee agrees first to appeal any such unsettled claims or controversies to the designated IC official, or designee, whose decision shall be considered the final agency decision. Thereafter, the Licensee may exercise any administrative or judicial remedies that may be available.
8.8 The terms and conditions of this Agreement shall, at the IC’s sole option, be considered by the IC to be withdrawn from the Licensee’s consideration and the terms and conditions of this Agreement, and the Agreement itself to be null and void, unless this Agreement is executed by the Licensee and a fully executed original is received by the IC within sixty (60) days from the date of the IC signature found at the Signature Page.
